

Our Mission

To ensure every student has the ability to enter any high school ready to succeed academically and socially.

Our Philosophy

Our school's philosophy asserts students can reach proficiency and beyond when given the appropriate academic structure and support. We believe using standards-based instruction centered around an academic framework that utilizes small group differentiated instruction and the gradual release model will give the structure to produce a productive learning environment. Our curriculum is developed with an understanding of Ohio Learning Standards embedded in our pacing guides, and supported through instructional coaching and professional development. Using these best practices and research-based strategies for academics, students will be able to close the achievement gap. We value an academic model where students are encouraged to use higher order thinking skills and learn from error to grow at a more rapid pace. Our philosophy of education encompasses the fundamental structures of an academic framework and standards based instruction with an emphasis on using data to drive instruction. These best practices used in combination with the gradual release model, small group instruction, instructional coaching, and professional development will prove our school can close the achievement gap and reach proficiency.

Our Program

Preparing students for the future is a colossal yet exciting task. Wright Preparatory Academy takes great pride in giving our teachers and students the tools they need to achieve success. Our curricular resources are aligned with the Ohio Learning Standards. We view these standards as the road map to direct our students to their academic goals. By using the school's curriculum and progressive technology, we equip our staff and students to reach their fullest potential. The combination of dedicated people and resources demonstrates our ongoing commitment to give each child the best possible education.
